**Recommendation**

In our 2-years project on “Digitalization of the TVET Sector in Ethiopia”, we engaged with Limina Educational Services on an ongoing basis. Limina was instrumental in developing and facilitating training activities for TVET teachers in using digital means for the theory part of their TVET training. In addition, Limina was involved in a number of stakeholder engagement activities, such as reports to the Multi-Stakeholder Steering Committee (led by Ethiopia’s Ministry of Labour and Skills) in Addis Ababa and the organization and facilitation of exchange visits with Ethiopian Delegates in South Africa, Namibia and Rwanda.

Throughout the project, Limina leadership and team showed the highest level of professional conduct and performed all assigned tasks to our and the stakeholders full satisfaction and in a timely manner. The way, Limina staff engaged with stakeholders of our project was remarkable. It blended very well professional expertise with the necessary empathy for the realities on the ground in Ethiopia. We definitely recommend Limina for any such assignments.”

Sincerely,

GOPA Worldwide Consultants
