To Whom It May Concern,

Recommendation

I wish to attest that the Stellenbosch University Centre for Pedagogy (SUNCEP) had the pleasure of collaborating with Limina Educational Services over the past four years on a variety of projects, both nationally and internationally. I must highlight that Limina played a key role in the development and facilitation of training activities for the Language section of the Professionalisation of Teacher Educators in English and Mathematics (ProTEEM) project, funded through an Erasmus+ EU Grant. This project aims to support Teacher Educators from the Democratic Republic of the Congo and Zambia in enhancing their content and didactic skills through pedagogical support initiatives. Additionally, we worked closely with Limina on the rollout of their ITiLang short course for South African language teachers.

Throughout our partnership, Limina's leadership was sterling, and her team consistently demonstrated highest levels of professionalism. They completed all tasks to the satisfaction of our team and stakeholders, ensuring timeous delivery. The conduct of Limina staff was impeccable in engaging with our project stakeholders.

We highly recommend Limina for any similar assignments.

Yours sincerely,

Ms Nokwanda Siyengo

Acting Director
SUNCEP
Faculty of Education
